opens discussion on the moral issues and prejudices surrounding bullying in schools

victimised by the cruel cunning stubbs terry dumpton nicknamed humpty dumpty resorts to truancy to avoid his bullies following pressure from his tormentors to prove he isn't a coward terry takes part in a dangerous activity resulting in a fatal outcome

in this book anne maguire examines the psychoanalytic relevance of evil using case studies and examples she examines how sin may find calamitous expression and the consequences which can flow from its covert pre-existence pride anger jealousy sloth lust avarice and gluttony are as old as mankind itself however in the sense in which they were originally understood interest in the seven sins has withered with the elapse of time today ideas about sin and evil as taught by the theologians of the early church seem dated and alien however when thought of as psychic representations of the dark side of human nature as c g jung defined it the seven deadly sins acquire relevant new meaning

provides a framework for better appreciating this work shows that the riddles serve as a metaphor to life descriptions of the book's structure language and themes can teach us a great deal about joyce's understanding of the nature of art and the role of the artist

jean jacques lecercle's remarkable philosophy of nonsense offers a sustained and important account of an area that is usually hastily dismissed using the resources of contemporary philosophy notably deleuze and lyotard he manages to bring out the importance of nonsense andrew benjamin university of warwick why are we and in particular why are philosophers and linguists so fascinated with nonsense why do lewis carroll and edward lear appear in so many otherwise dull and dry academic books this amusing yet rigorous new book by jean jacques lecercle shows how the genre of nonsense was constructed and why it has proved so enduring and enlightening for linguistics and philosophy

in this appreciation of john dewey's enormous contribution to american philosophy richard m gale argues that what makes dewey's philosophy unique and exciting is his attempt to synthesize what gale calls prometheanism with

dewey s unique brand of mysticism as gale points out dewey celebrated human beings as promethean creators of meaning and value through the active control of nature but at the same time dewey created a synthesis whereby a sort of mystical unifying experience results from the subject s active engagement with the environment through inquiry paradoxically the active subject becomes passive in this synthesis to achieve unification with a shared spiritual reality which dewey expressed as a common faith gale goes on to show that for dewey artistic creation is the paradigm of this synthesis in a work of art both artist and all who appreciate the creation are united in a shared experience that is the result of an active creative engagement with the environment but this synthesis also holds for our efforts to gain knowledge and act morally this in depth analysis of one of america s great philosophers will make a valuable addition to the libraries of students and scholars of john dewey and american philosophy

impeccably researched and astoundingly insightful the root cause reveals how to go from putting out fires to finding true lasting solutions a must read guide for executives and leaders at any stage of their career marshall goldsmith thinkers50 1 leadership thinker and 1 new york times bestselling author of triggers businesses large and small have their day to day operations disrupted by new and unforeseen circumstances typically these disruptions manifest themselves in many forms such as disappointing top line results low employee engagement the war for talent a lack of creativity and innovation eroding profit margins price wars fraud and ethics violations such unintended and unwanted effects are mere symptoms of a dysfunctional business system that means their root causes are inherent to that system s design structure or organization implementation or operation maintenance and management which are all exclusive executive responsibilities until executives adapt and adjust their business systems accordingly these problems will keep recurring prompting the erroneous belief they are without solution in this groundbreaking guide change management consultant hans norden challenges you to rethink your approach to solving stubborn enterprise wide problems by demonstrating that real solutions are in fact readily available rather than prescribing how to solve a dysfunctional system s countless symptoms he describes why systemic problems occur and keep manifesting in one form or another once you understand the principles that explain and predict the outcome of your decision making process you will forge ahead with purpose and confidence feeling empowered to solve stubborn systemic problems with authentic and lasting solutions you ll gain expert invaluable insight into why

change initiatives require a form of leadership different from routine operations why diagnosing systemic problems makes all the difference in the successful outcome of change management initiatives including changing strategic direction why recognizing behavioral patterns such as human error prevents unnecessary friction and conflict and enhances business performance why growing bottom line results tends to erode a business system's sustainable performance why developing a business system's capability and capacity enhances its sustainable performance why neither people nor technology can outperform a business system's capability and capacity why the existence of net profits doesn't necessarily constitute success and vice versa whether you've been running your organization for years or you're an up and coming suite leader a trusted advisor or financier with the root cause you have everything you need to help create and deliver authentic solutions to drive sustainable success for years to come

many works of fantasy literature feature a considerable number of embedded poems some written by the authors themselves some borrowed and transformed from other authors exploring the mechanisms of this mix and the interaction between individual poems and the overall narrative this monograph analyses the various forms and functions of embedded poems in major works of fantasy literature the choice of authors and texts shed light on the development of fantasy as a genre that frequently mixes prose and verse and thus continues the long tradition of prosimetric practices after the romantic period not only does the analysis of the embedded poems allow for a new understanding of the individual works it also promises insights into shared literary historical roots cross influences between the authors and the role of the mix of poetry and prose for the imaginative and subversive potential of fantasy literature in general providing comprehensive case studies of the forms and functions of embedded poems in fantasy literature this volume illuminates the emergence of modern fantasy and its impact on contemporary fantasy
