Bangladesh's robust economic recovery from the COVID-19 pandemic was interrupted by Russia's war in Ukraine, rising global commodity prices, supply disruptions, and slowdown in external demand. These factors have led to a sharp widening of the current account deficit, depreciation of the Taka, and the rapid decline of foreign exchange reserves. The resulting high inflation, slow growth, and stringent measures to compress demand are disproportionately impacting the poor. Heightened global uncertainties will keep the balance of payments (BoP) under pressure for some time.

Natural disasters have posed significant economic costs to Bangladesh, and financing needs associated with disaster response are estimated to be substantial. Bangladesh has put in place fiscal mechanisms, social protection programs, and financial instruments to respond to natural disasters.

while the country has adequate resources for recurrent disasters financing gap for moderate and severe disasters remains large the government could strengthen fiscal policy mechanisms to help close the financing gap and make social programs more shock responsive and scalable in times of disaster bangladesh could also better leverage financial sector instruments to enhance disaster resilience
