negotiating china s destiny explains how china developed from a country that hardly mattered internationally into the important world power it is today before world war ii china had suffered through five wars with european powers as well as american imperial policies resulting in economic military and political domination this shifted dramatically during wwii when alliances needed to be realigned resulting in the evolution of china s relationships with the ussr the u s britain france india and japan based on key historical archives memoirs and periodicals from across east asia and the west this book explains how china was able to become one of the allies with a seat on the security council thus changing the course of its future breaking with u s centered analyses which stressed the incompetence of chinese nationalist diplomacy negotiating china s destiny makes the first sustained use of the diaries of chiang kai shek which have only become available in the last few years and who is revealed as instrumental in asserting china s claims at this pivotal point negotiating china s destiny demonstrates that china s concerns were far broader than previously acknowledged and that despite the country s military weakness it pursued its policy of enhancing its international stature recovering control over borderlands it had lost to european imperialism in the nineteenth and early twentieth century and becoming recognized as an important allied power with determination and success

the development of nuclear technologies for war medicine and energy production dramatically increased the number of people exposed to artificial radioactivity and raised new stakes and questions about protecting them this volume examines how the establishment of standards and protocols for radiation protection was not only a technical process but also the byproduct of extensive and ongoing negotiations among scientists states international bodies lawyers economists companies unions and activists over time exposed individuals whether japanese survivors accident or fallout victims atomic veterans or workers have leveraged their own experiences of radiation exposure to challenge powerful institutions and their standards contributors explore radiation risk and protection policies across the globe from japan to canada the united kingdom to north africa and spain to greece they excavate the legal scientific diplomatic and personal challenges posed by radiation protection chapters move from the individual and institutional to the global level arguing that issues of radiation exposure like so many other forms of risk are

never merely personal but deeply often invisibly political and diplomatic
