a comprehensive anthology of classic writings on Jewish philosophy from the Bible to postmodernism

What is Philosophy is the last instalment of a remarkable twenty-year collaboration between the philosopher Gilles Deleuze and the psychoanalyst Félix Guattari. This hugely important text attempts to explain the terms of their collaboration and to define the activity of philosophy in which they have been engaged. A major contribution to contemporary continental philosophy, it nevertheless remains distinctly challenging for readers faced for the first time with Deleuze and Guattari's unusual and somewhat allusive style. This reader's guide offers a concise and accessible introduction to this hugely important and yet challenging work, written specifically to meet the needs of students coming to Deleuze and Guattari for the first time. The book offers guidance on the philosophical and historical context of the text, its reception and influence, its key themes, notes on reading the text, and further reading suggestions.

This flexible introductory textbook explores several key themes in philosophy and helps the reader learn to engage with the key arguments by introducing and analysing a selection of classic readings. Fully integrated introductory text with readings for beginning students of philosophy. Each chapter focusses on a core philosophical topic and contains an introduction to the topic, 2 classic readings, and interactive commentaries on the readings. An introductory book which doesn't merely tell the reader about the subject but requires them to engage philosophically with the text. A pedagogical resource developed in the classroom by the authors at the University of London.

This anthology is designed to be a stand-alone text for an introduction to philosophy course. It includes more accessible readings selected from general readership magazines like

harper s lingua franca and scientific american to help shape and give definition to the more difficult philosophical readings like those of plato aquinas locke and kant
